#### THE LONDON STEREOSCOPIC COMPANY'S

## NEGATIVE COLLODION.

A most sensitive preparation, giving great intensity, while it fully preserves the detail and demi-tints in the shadows. 9s. per lb.; 8d. per ounce.

The collodion and iodizing solution can be had separately, in which state they will keep in good condition for years.

#### POSITIVE COLLODION.

Unsurpassed for uniformity of action, sensitiveness, and keeping qualities. 8s. per lb.; 6d. per oz.

## SILVER BATHS (Positive and Negative.)

Most carefully prepared, and ready for immediate use. 6d. per ounce; 8s. per pint.

Developing and Fixing Solutions made to order.
